**PROJECT DESCRIPTION:**

- 1) The School District of Prairie du Chien (the "District") requests detailed responses regarding the implementation of a Performance Contract for guaranteed energy saving improvements through miscellaneous energy efficiency projects at the District.
  - a) It is the District's intent to leverage this partnership to get the best possible value on these projects for the taxpayers of our District. To that end, prospective firms are encouraged to look for innovative and creative ways to accomplish the projects including using District staff and resources where possible. Respondents must ensure that they will allow District direct or other tax free purchasing for tax savings as requested. Respondents must also ensure open book pricing and provide a transparent response in Section B showing all mark-ups, fees, internal labor and other costs associated with the project.
  - b) This Request for Qualifications (RFQ) will provide a competitive means by which to select a Qualified Provider (per §66.0133) to provide the Performance Contract.
- 2) In general, the components of the program are to:
  - a) Provide energy and operations savings through the implementation of miscellaneous energy efficiency projects.
  - b) If selected, the Respondent must include, as part of the program, a minimum written guarantee of energy and/or operational savings.
- 3) **Current estimated project costs are: \$464,000 or less. All projects must be complete no later than June 30<sup>th</sup>, 2016.** The District reserves the right to change the size and scope of the project.
- 4) The scope of work for the selected provider may include, but is not limited to, the following tasks:
  - a) Identifying energy and/or operational savings and paybacks associated with the implementation of miscellaneous energy efficiency projects selected by the District.
  - b) Project management. The Respondent will be asked to indicate how they will partner with the District in managing and supervising the project. The District expects a minimum of bi-weekly on-site visits by the Project Manager.
  - c) Minimum written guarantee of energy and/or operational savings.
- 5) The District has a full service purchasing department and therefore we intend on realizing all reasonable and practical sales tax savings through the use of owner direct purchases.
- 6) It is expected that the Performance Contractor will work with the District to pursue and obtain any and all possible/practical rebates, grants or other funding for the projects outlined in the Scope of Work and the detailed report prepared by the Performance Contractor in order to minimize the impact on the District taxpayers wherever possible.

## THE SELECTION PROCESS

### 1) TIMETABLE
